

## CASE STUDY

Client: Bear Stearns  
Project: 5 Churchill Place  
Architect: Swanke Hayden Connell  
Brief: Work closely with the interior architects to visualise key spaces throughout the new European Headquarters of Bear Stearns. Images to be used to convey design concept to board.  
Deliverables: 12 Interior Still Images

Notes: Working closely with Swanke Hayden Connell Architects, one of the most prestigious architectural firms in the world, Soluis produced a set of exceptional images showcasing all aspects of the new European Headquarters of Bear Stearns.  
Accurate representation of materials, light fittings and furniture was essential to the project. Soluis therefore developed a bespoke library of components for this job alone. From boardroom to bathroom every detail was pored over.  
Showcasing in London and New York at board level these images were vital in the communication of Swanke Hayden Connell's vision. Our communication skills, experience, technical excellence and flair made this project a resounding success.
